Attention: Annelie

Dear Annelie

Thank you so much for your call today 25 March 2008, with the hugely encouraging news that Selfmed will pay for both the Hospital and Radiology costs incurred when my wife was knocked down in Cape Town by a taxi on 4 March 2008.

Please convey to your senior management our appreciation of this gesture, for we are acutely aware of our own status as very new members. It is clear that Selfmed lives up to its motto of "Simplicity, Sincerity and Security", and this is worthy of respect.

I am happy to tell you that she is recovering well, though slowly, from the injury and trauma. We are just so thankful that she was not killed, brain-damaged or paralysed!

Kind regards

Peter
